

# FastGate™ Handheld

*Patent-Pending Access Control & Automated License Plate Recognition System*

Advanced Detection Technology's FastGate™ *Handheld* puts security in the palm of your hand! The revolutionary, patent-pending, handheld technology allows personnel to actively engage in the access control process. FastGate™ HandHeld is designed to encompass a wide variety of technologies including RFID, biometric features, access control gates, document scanning, Under Vehicle Inspection Systems, and License Plate Recognition. Information captured by the unit is immediately synchronized and validated with *any* pre-determined database to present security officials with on-screen images and alerts in milliseconds.

Ideal for law enforcement, military staff, parking and security professionals, FastGate™ Handheld:

- > > Features integrated, handheld, digital camera used to capture image of driver, passengers, and license plate
- > > Magnetic stripe reader and signature pad to capture driver specific details
- > > The addition of Licence Plate Recognition software or an Under Vehicle Inspection System increases the efficiency of security staff.

## FASTPLATE™ HANDHELD FEATURES

- > > Icon-based, user friendly software – available in most languages
- > > Synchronize applications with approved or watch list
- > > On-screen, cell phone and/or email alerts
- > > Fully-functional, Windows® tablet personal computer. Intel Centrino® Pentium® M733, 1.1 GHz 2MB L2 cache, FSB 400Mhz. 1.28 GB DDR2 RAM
- > > 8.4" (213mm) diagonal, 800x600 SVGA color TFT enhanced brightness, transmissive LCD display
- > > High-capacity LI-Ion battery pack for 8-hour service
- > > Shock-mounted 40GB, upgradable to 80GB Hard Drive
- > > Weighs 4.6 lbs. (2.08 kg)
- > > Lightweight magnesium alloy for strength MIL-STD 801F, 506.5 IV: 26 repeated drops to plywood over concrete from 36 inches
- > > Dust IP 54; Rain MIL-STD 810F, 506.4 II 4" per hour, 40psi for 10 minutes on all axes
- > > - 4°F to +122°F (-20°C to +50°C) operating temperature
- > > Wireless 802.11 a/b/g (11/54 Mbps) 2.4 GHz connection to server for multiple gate operation, gate, light and turnstile control

## FASTPLATE™ HANDHELD ADD-ONS

- > > Bar Code Scanner
- > > Magnetic stripe reader
- > > Fingerprint reader
- > > RFID, Smartcard, and CAC reader
- > > Four-point hand or chest harness
- > > Belt battery pack for extended field use
- > > Integrated cell phone link
- > > Integrated GPS
- > > Portable printer for temporary or visitor badges
