

# FastPlate™ Mobile

*Automated License Plate Recognition System*

Advanced Detection Technology's FastPlate™ *Mobile* Automated License Plate Recognition (LPR) System accurately captures and processes license plates on vehicles traveling up to 110MPH (177 km/h) in up to four (4) lanes of traffic. FastPlate™ Mobile digitizes license plate numbers and immediately alerts user to *any* pre-defined conditions, such as stolen vehicle list, un-paid fines, outstanding warrants, or amber alerts. Advanced Detection Technology's LPR technology is like having a second officer on duty!

Ideal for Law Enforcement Professionals, FastPlate™ Mobile features

- > > Mounted and mobile digital cameras
- > > Ruggedized Windows® tablet PC or notebook accommodated by a dash mount
- > > Shock resistance digital cameras
- > > User friendly, icon based, touch screen
- > > Software can be linked to any pre-defined data or alerts list
- > > More than doubles officer effectiveness
