

## FOXTROT™ Litter

One of the most physically and mentally challenging situations an individual can face is casualty evacuation. Casualties must be moved quickly and safely. Every second wasted decreases the casualty's chance of a speedy recovery.

**The Foxtrot™ Litter** provides an effective casualty evacuation platform that is easy to employ and compact enough to accompany individuals on an assault or long movement.

The Foxtrot™ Litter is small enough to attach to your kit or another bag, but is still functional in a combat or rescue environment. It provides a rapid means of casualty movement without compromising durability, flexibility, or the individual's ability to maneuver through the most demanding environments. Casualties can be dragged or carried off target without excess time spent rigging and securing.

### Features of the Foxtrot™ Litter:

- > Light and compact (4.6 Lbs with carrier)
- > Size allows movement of casualties through narrow passages and walkways such as on aircraft, buses, and trains. Casualties can be sat up to make tight turns on stairwells and hallways.
- > Rapid deployment drag line already rigged to litter.
- > Multiple grab points ease passage through tight areas.
- > Quick secure straps keep casualty is secure but accessible for reassessments and care.

### Part Number:

**F-LITC / F-LITC-DA (buckle closure)**

## Fast Straps

**The Fast Strap** accessory pack allows you to retrofit the Foxtrot™ Litter with an alternate strap system. Designed for those seeking a larger strap with side release buckle closure, these straps are extremely quick and easy to secure. Each pack includes 3 sets of main straps, 2 leg straps, and new mounting buckles.

Part Number: **FAST**

**Fast Straps**
